**Summary** — Innovative Full Stack Developer with expertise in architecting scalable MERN stack applications. Proven track record of delivering high-performance web solutions with advanced features including real-time communication, AI integration, and payment processing. Skilled in transforming complex business requirements into elegant, maintainable code while ensuring optimal user experiences across platforms.

## Skills

**Frontend** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js Redux, Zustand, Tailwind CSS, Bootstrap, Responsive Design  
**Backend** Node.js, Express.js, RESTful APIs, Socket.io, Authentication & Authorization

**Languages** JavaScript, TypeScript (familiar)  
**Database** MongoDB, Mongoose, MySQL  
**Integrations** Cloudinary, Imagekit.io, Google Maps API, OpenAI API, Gemini AI, Razorpay.  
**Tools** Git, GitHub, Postman, VS Code, Vercel

## Experience

**Eduspray India Pvt.Ltd : Karkardooma, Delhi**

Feb 2024 – Oct 2024

*Frontend Developer*

- Engineered responsive, pixel-perfect web applications ensuring cross-browser compatibility across Chrome, Firefox, Safari, and Edge.
- Collaborated with UI/UX designers to implement pixel-perfect interfaces.
- Optimized website performance, improving load times and user experience.
- Integrated RESTful APIs with robust error handling and caching, reducing API calls by 35%.
- Maintained cross-browser and cross-device compatibility.
- Improved performance by 40% through code-splitting, lazy loading, and optimized asset delivery.
- Maintained detailed documentation and testing protocols, reducing onboarding time by 50%.

## Projects

**Speed – Real-Time Cab Booking Platform**

Feb 2025 – Apr 2025

*MERN Stack — Socket.io — Google Maps API — JWT Authentication*

- Built real-time ride-hailing platform with GPS tracking, live updates, and dynamic fare calculation.
- Implemented WebSocket communication using Socket.io for instant ride updates to 100+ users.
- Integrated Google Maps API for route optimization, live distance computation, and map rendering.
- Developed secure role-based authentication using JWT, bcrypt, and refresh tokens.
- Designed mobile-first UI with Tailwind CSS ensuring seamless multi-device experience.

**AI Conversational Hub & Media Generation Platform**

Jul 2025 – Aug 2025

*React.js — Node.js — OpenAI API — Google Gemini — Cloudinary*

- Developed AI-powered chatbot with multimodal features — chat, image generation, and voice interaction.
- Integrated OpenAI GPT-4 and Gemini with fallback and rate limiting, achieving 99.5% uptime.
- Built JWT-secured authentication, dashboard for chat history, and media gallery with pagination.
- Leveraged Cloudinary for optimized storage with lazy loading and CDN caching.
- Added context-aware conversation threading for coherent multi-turn dialogues.

**AI-Enhanced E-Commerce Marketplace**

Sep 2025 – Sep 2025

*MERN Stack — Razorpay — Redux Toolkit — Cloudinary — Admin Dashboard*

- Developed a MERN-based e-commerce platform with product listing, advanced filtering, cart, and wishlist features.
- Integrated **Razorpay payment gateway** for secure online transactions with multiple payment options.
- Built user authentication (login/signup) and role-based access (user/admin dashboard).
- Used React.js with Context API/Redux for centralized state management.
- Integrated Cloudinary for product image uploads and optimized image delivery.
- Designed responsive UI with React, Tailwind CSS, react-icons, and React Router DOM.

## Education

**ASIAN INTERNATIONAL UNIVERSITY**

2021 – 2024

*Bachelor of Computer Application*

**K.S.G INTER COLLEGE, BAREILLY, UTTAR PRADESH**

2020 – 2021

*Higher Secondary Education in Math Science*
